Extended Abstracts

(Alphabetical listing by first author with late abstracts at the end of the volume)

paper number		
1913	Jill H. Andrews	
	<i>Development and implementation of an outreach program to promote public awareness of seismic hazards and encourage risk mitigation in vulnerable communities</i>	1
1879	Ryo Anma, Yujiro Ogawa, Yuzuru Yamamoto, Yasufumi Ohta, and In Tae Lee	
	<i>Liquefaction and injection structures in accretionary prism sediments: examples from the Shimanto belt, Miura-Boso peninsula and Nankai trough</i>	3
2108	Kuvvet Atakan	
	<i>Uncertainties in paleoseismology: Implications for the earthquake recurrence database ...</i>	5
2264	Mario A. Aurelio	
	<i>The Philippine fault: an active strike-slip fault in an oblique convergence zone</i>	11
2066	Yasuo Awata	
	<i>Behavioral segments and their cascades for the earthquake occurrence in the Japanese surface ruptures</i>	15
1867	Takashi Azuma, Yuuichi Sugiyama, Yoshihiko Kariya, Yuan-Hsi Lee, Tung-Sheng Shih, Shih-Ting Lu, and Weiyu Wu	
	<i>Surface faults of the September 21, 1999 Chi-chi earthquake, Taiwan</i>	19
2060	Takashi Azuma, Yoko Ota, and Mayumi Kobayashi	
	<i>Monitoring of degradation of the 1995 Nojima earthquake fault scarps at Awaji Island, southwest Japan</i>	23
2272	S.A. Hamid Badri	
	<i>Morphotectonic traces of the active fault along the Zagros subduction suture line in Iran</i>	29
2001	Amgalan Bayasgalan	
	<i>Active faulting in Mongolia</i>	31
2004	Kelvin Berryman	
	<i>Earthquake geology studies in New Zealand and their application to seismic hazard</i>	39
2306	Chen Yong, Wang Wei-jun, and Li Juan	
	<i>Application of seismicity data and gravity data to the study of active faulting</i>	49
2251	Noboru Chida	
	<i>Some new facts on active faults by recent investigation in Kyushu, southwest Japan</i>	53
1924	Hung-Chie Chiu	
	<i>The near-source ground motions from Chi-chi, Taiwan earthquake</i>	55
2003	Carlos H. Costa	
	<i>Quaternary deformation at the central Andes orogenic front and Foreland regions of Argentina</i>	59
2256	Timothy E. Dawson, Tom Rockwell, Sally McGill, and Natanya Black	
	<i>A 7000 year record of paleoearthquakes on the central Garlock fault, near El Paso Peaks, California</i>	65
2258	Paolo. M. De Martini, N.A. Pino, G. Valensise, and S. Mazza	
	<i>An unusual pattern of faulting in the Central Apennines (Italy): geodetic and seismologic evidence for pre- and co-seismic slip along a low-angle, blind normal fault and implications for active faulting studies</i>	69
1865	Ömer Emre, Tamer Yigit Duman, Ahmet Dogan, Selim Salp, and Erdem Çöreksoğlu	
	<i>12th November 1999 Düzce earthquake on the North Anatolian fault zone, Turkey</i>	75
1872	Tatsuro Fukuchi	
	<i>Elucidation of thermal events in the Nojima fault gouge zone by ESR analysis – The case of the Nojima fault deep drilling core samples –</i>	81

2259	Mary Goldsworthy and James Jackson <i>Active normal fault evolution and interaction in Greece revealed by geomorphology and drainage patterns.....</i>	<i>87</i>
2254	Hideaki Goto and Takashi Nakata <i>Recent activities and segmentation of the Median Tectonic Line in Shikoku, Japan..</i>	<i>91</i>
1911	Earl W. Hart <i>Alquist-Priolo earthquake fault zoning act: mitigating the hazard of surface faulting in California</i>	<i>95</i>
2106	Manabu Hashimoto <i>A simulation of activity of large earthquakes in and around the Japanese islands with interacting fault system model</i>	<i>99</i>
2265	Honglin He <i>Strike-slip rate of the Kangding fault zone, east Tibet and its implications</i>	<i>103</i>
2273	Khaled Hessami, Hadi Tabasi, Esmael Shabanian, Mohammad R. Abbasi, Khalil Fegghi, and Shahryar Solaymani <i>Preliminary results of trenching across the north Tabriz fault NW Iran</i>	<i>107</i>
2057	Kazuomi Hirakawa, Yugo Nakamura, and Tsuyoshi Haraguchi <i>Huge tsunamis and their recurrency interval based on tsunami deposits along the Pacific Coast of Tokachi region, Hokkaido, northern Japan</i>	<i>111</i>
2103	Yasutaka Ikeda <i>Mantle-lid delamination as a possible cause of Pliocene-Quaternary tectonic events in central Japan</i>	<i>115</i>
1874	Ken Ikehara <i>Deep-sea turbidite record of great earthquake along the eastern Nankai trough and eastern margin of Japan Sea</i>	<i>119</i>
2059	Ken Ikehara <i>Coseismic change of sea bottom related to 1993 Hokkaido-nansei-oki earthquake</i>	<i>121</i>
1855	Toshifumi Imaizumi, Yasutaka Ikeda, Hiroshi Sato, and Takahiro Miyauchi <i>Active thrust-front structure -examples from Japan</i>	<i>123</i>
1859	Naoto Inoue, Naoko Kitada, and Keiji Takemura <i>Three-dimensional underground structure in Osaka Plain (1) Basement configuration inferred from gravity analysis-</i>	<i>127</i>
1931	Kojiro Irikura <i>Strong ground motions near faults and earthquake damage --recipe of strong motion prediction--</i>	<i>129</i>
2051	Tatsuya Ishiyama and Masami Togo <i>Geomorphology and precise active fault map of the Yoro fault and the Kuwana fault, central Japan.....</i>	<i>137</i>
2101	Hisao Ito, Yasto Kuwahara, Tsutomu Kiguchi, Koichiro Fujimoto, Tomoyuki Ohtani, D. Lockner, H. Naka, and Hidemi Tanaka <i>Deeper structure of the Nojima fault by drilling</i>	<i>141</i>
1822	David D. Jackson <i>Estimating earthquake potential from faults</i>	<i>151</i>
2307	David D. Jackson <i>Compatibility constraints on earthquake fault motion</i>	<i>153</i>
1852	Yoshihiko Kariya, Yuichiro Fusejima, Yoshinori Miyachi, Kiyohide Mizuno, Kenji Satake, Akira Sangawa, Ryusuke Imura, Koji Okumura, Makoto Yanagida, and Masaru Sato <i>Paleoseismological study of the Kizugawa fault system in the eastern Kinki district, Japan</i>	<i>155</i>
2061	Shigehiro Katoh, Fumio Kobayashi, and Tohru Sakiyama <i>An important role of a museum of natural history to mitigate earthquake hazards</i>	<i>161</i>
2062	Tomonori Kawamura, R. Arai, T. Nakada, S. Kosaki, N. Tsumura, T. Ito, K. Ishimaru, Y. Ohta, and T. Ikawa <i>Subsurface structures revealed by high resolution seismic reflection studies in the Ogura area, Hokudan Town, Awaji island, Japan</i>	<i>163</i>

2274	Shahid Hasan Khan <i>Neotectonics of the Chaman fault</i>	167
2052	Kim Haeng Yoong <i>Active tectonics and geomorphic development of Uonuma Hills in the Shinano-gawa fold and fault zone, central Japan</i>	173
1912	Yoshihiro Kinugasa <i>Application of active fault study for earthquake disaster mitigation</i>	177
1860	Naoko Kitada, Naoto Inoue, Keiji Takemura, and Muneki Mitamura <i>Three-dimensional underground structure in Osaka plain (2) – Subsurface configuration obtained from boring data –</i>	179
1853	Naoji Koizumi, Akio Cho, Makoto Takahashi, and Eikichi Tsukuda <i>Groundwater level observation of Geological Survey of Japan in and around the Kinki district, Japan for earthquake prediction research</i>	183
2275	Yasuhiro Kumahara <i>Recognition of the Yari fault and its significance for active tectonics of the Himalaya ...</i>	187
1831	Yohta Kumaki and Koichi Shimokawa <i>Activity of the Headquarters for Earthquake Research Promotion of Japan with special reference to evaluation of active fault activity</i>	191
1856	Takashi Kumamoto and Working Group of New Active Fault Map with GIS <i>Technical aspect of new active fault mapping in Japan with a scale of 1:25,000 by geographic information system</i>	195
2008	Ismail Kusçu, Emin Demirbag, Hulya Kurt, Ayse K. Ozcan, Aysun B. Güney, and Caner Imren <i>The North Anatolian fault zone under the sea of Marmara, imaged by seismic reflection profiles</i>	199
2266	Kyung Jai-Bok, Lee Kiehwa, Atsumasa Okada, Keiji Takemura, Mitsuhsa Watanabe, Yasuhiro Suzuki, and Toshiro Naruse <i>Paleoseismological study of the Ulsan and Yangsan fault systems in the southeastern part of the Korean peninsula</i>	208
1868	Lee Min and Central Geological Survey staff <i>The preliminary investigation on the Chi-chi earthquake fault in central Taiwan</i>	215
2076	Gideon Leonard, David M. Steinberg, and Nitzan Rabinowitz <i>Sensitivity analysis and paleoseismic research for improving seismic hazard analysis</i>	217
2260	Myra A. Leounaki and Spyros B. Pavlides <i>Active fault studies in Greece under the prism of recent destructive earthquakes</i>	223
2073	Li Chuanyou, Wen Xueze, and Song Fangmin <i>Future probabilistic seismic hazard assessment on different segments of Xianshuihe fault zone</i>	227
2067	Li Juan and Chen Yong <i>Long and winding road from active faulting to seismic risk</i>	231
2065	Aiming Lin and Maruyama Tadashi <i>Late Quaternary activity of the Rokko fault zone, southwest Japan</i>	235
2308	Michael N. Machette, Kathleen M. Haller, Richard L. Dart, and Larry Mayer <i>New digital maps and database of major active faults and folds in the United States — Building a WWW-based digital map and computer database for popular consumption</i>	239
2079	Michael N. Machette, Anthony J. Crone, Paolo M. De Martini, and Koji Okumura <i>Active faults in stable continental regions-examples from Australia and north America</i>	243
2053	Hideaki Maemoku <i>Late Holocene coseismic uplift deduced from assemblages of emerged sessile organisms in cape Muroto, southwestern Japan</i>	249
2276	Javed N. Malik, Parag S. Sohoni, S. S. Merh, and R. V. Karanth <i>Palaeoseismology and neotectonism of Kachchh, western India</i>	251
2005	Shmuel Marco, Thomas Rockwell, Ariel Heimann, and Amotz Agnon <i>Historical earthquake deformations revealed by 3D trenching on Dead Sea transform</i> .	261

1861	Tadashi Maruyama and Aiming Lin <i>Tectonic history of the Arima-Takatsuki Tectonic Line, southwest Japan</i>	265
2054	Nobuhisa Matsuta <i>Tectonics along the southeastern margin of Matsumoto basin, central Japan, considered from seismic profiling and tectonic landform</i>	269
2007	Bertrand Meyer, Rolando Armijo, Geoffrey King, Aurélie Hubert, Alexis Rigo, Aykut Barka, and Dimitri Papanastassiou <i>Active faulting in Marmara Sea and Corinth rift areas, implications on evolution of the Anatolia-Aegean region</i>	271
2104	Bertrand Meyer, Paul Tapponnier, François Métivier, and Yves Gaudemer <i>Active faulting along the northeastern edge of Tibet, implications on Plateau formation</i>	275
2261	Alessandro M. Michetti, A.M. Blumetti, E. Esposito, L. Ferreli, L. Guerrieri, S. Porfido, L. Serva, and E. Vittor <i>Earthquake ground effects and seismic hazard assesment in Italy: Examples from the Matese and Irpina areas, southern Apennines</i>	279
2002	Min Wei, Zhang Peizheng, and Deng Qidong <i>The detailed study on Holocene paleoearthquakes of Haiyuan active fault</i>	285
2252	Ai Minemoto, Yasuto Ito, and Keiji Takemura <i>Quaternary tectonics at the northern margin of Beppu Bay</i>	289
2058	Yukari Miyashita and Masayuki Komatsu <i>Formation of mylonites and pseudotachylites in the Oshima metamorphic rocks in the Yawahama-Oshima islands, western Shikoku, southwest Japan</i>	293
2068	Karl Mueller <i>Evaluating blind thrust hazards with structural analysis, geomorphology and trench excavations: examples from southern California and New Madrid</i>	299
1873	Takashi Nakata and Kunihiro Shimazaki <i>Geoslicer, a new soil sampler for paleoseismological studies</i>	315
2069	Takashi Nakata, Kunihiro Shimazaki, Yasuhiro Suzuki, Eikichi Tsukuda, and Hideaki Goto <i>Geometric criteria for directivity of rupture propagation and segmentation of active fault systems</i>	319
1875	Futoshi Nanayama, Hirohisa Kinoshita, Eikichi Tsukuda, Kiyohide Mizuno, Ken Niimi, Hisao Ishii, Naoko Kitada, Reiko Saito, Naoto Inoue, and Keiji Takemura <i>Paleoseismological study of the Tomogashima-suido fault, Median Tectonic Line active fault system (MTL) during Holocene, at the eastern side of Kitan straits, central Japan</i>	325
1877	Futoshi Nanayama, Kenji Satake, Koichi Shimokawa, Isao Hirota, Akito Makino, Kiyoyuki Shigeno, and Ryuta Furukawa <i>Sedimentological study of postulated tsunami deposits along the Kuril subduction zone, eastern Hokkaido, northern Japan: preliminary study around the Kiritappu marsh</i>	329
2070	Satoko Odagiri and Kunihiro Shimazaki <i>Size of a historical earthquake an active fault</i>	333
1878	Takao Oka <i>Summary of the neotectonics of Hokkaido, northern Japan --accompanied by the newest survey result of some active fault systems</i>	337
2255	Atsumasa Okada, Takashi Nakata, Koji Matsunami, Masayoshi Kusaka, Akihiro Murata, Kiyohide Mizuno, Tadashi Konomi, Hirofumi Tani, Michio Morino, Tadatoshi Nohmi, Emi Takeno, and Sayori Ikeda <i>Holocene activity and subsurface structure of the Median Tectonic Line active fault system in the Tokushima plain, eastern Shikoku</i>	343
1866	Koji Okumura <i>Paleoseismology of the North Anatolian fault</i>	349
1923	Yoko Ota, Mitsuhsa Watanabe, Yasuhiro Suzuki, Hiroshi Sawa, Makoto Yanagida, Akira Miyawaki, and Haeng Yoong Kim <i>Characteristics of earthquake fault associated with 9.21 Chi-chi earthquake,</i>	

	<i>central Taiwan, especially on the relationship between earthquake fault and pre-existing Quaternary active fault</i>	353
1869	Yoko Ota <i>Holocene activity of three active faults on Miura peninsula, southwest of Tokyo, central Japan</i>	359
1813	Daniela Pantosti <i>Earthquake recurrence through time</i>	363
2077	Spyros B. Pavlides, G. A. Papadopoulos, and A. Ganas <i>Seismic hazards in urban areas : The 7th september, 1999, Athens earthquake case study</i>	367
2262	Spyros B. Pavlides, A. Chatzipetros, and R. Caputo <i>Earthquake fault ruptures of the broader Aegean region as quantitative input to seismic hazard assesment</i>	371
2277	George Philip and K.V. Ravindran <i>Study of March 29, 1999 Chamoli earthquake induced landslides using IRS-1C/1D data</i>	377
2267	Subagyo Pramumijoyo <i>Existing active fault at semarang, central Java, Indonesia: revealed by remote sensing and field observation</i>	383
2074	C.P. Rajendran and Kusala Rajendran <i>Geological investigations in the 1819 Kutch (North Western India) seismic zone and implications for mechanics of SCR earthquakes</i>	387
2278	Kusala Rajendran and C.P. Rajendran <i>Earthquake history at selected sites in the Himalaya: recent initiatives</i>	393
1914	Robert Reitherman <i>Engineering aspects of surface fault rupture</i>	397
2401	Robert Reitherman <i>Are Californians adequately protected from earthquakes?</i>	405
2268	Rolly E. Rimando <i>Neotectonic and paleoseismic study of Marikina Valley Fault System (MVFS), Philippines</i>	411
2310	Thomas K. Rockwell, J.A. Dewhurst, C.W. Walls, W.J. Pollard, A. Orgil, G. Faneros, and Timothy E. Dawson <i>High-resolution paleoseismology in southern California: Investigation of segment controls on the rupture history of the southern San Jacinto fault</i>	413
2105	Akira Sangawa <i>Seismoarchaeology</i>	421
2253	Kenji Satake, Toshihiko Sugai, Akira Sangawa, Makoto Yanagida, Hiroshi Yokota, Takaaki Iwasaki, Masashi Omata, and Akira Ishikawa <i>Structure and paleoseismology of the Kongo fault system in Nara prefecture</i>	425
2304	Kenji Satake <i>Tsunamis and subduction-zone earthquakes</i>	427
1854	Tsutomu Sato and Makoto Takahashi <i>Hydrological changes of springs in Awaji island associated with the 1995 Kobe earthquake</i>	433
1812	David P. Schwartz <i>Paleoseismology, earthquake recurrence, and the challenge ahead</i>	435
2109	David P. Schwartz and Working Group on California Earthquake Probabilities <i>Earthquake probabilities in the San Francisco Bay region: 2000 to 2030 – a summary of findings –</i>	437
2006	Michel Sebrier, Olivier Bellier, Emmanuel Baroux, Marc Cushing, Gianluca Valensise, Nicole Béthoux, Béatrice De Voogd, and Philippe Paillou <i>Active faulting and seismic hazard in regions of moderate seismicity, the case of Provence (SE France)</i>	443

2301	Toshihiko Shimamoto <i>Down to the seismogenic zones : How much do we know?</i>	449
2107	Kunihiko Shimazaki <i>Simple models of earthquake recurrence</i>	451
2302	Lionel L. Siame, Michel Sébrier, Olivier Bellier, and Didier L. Bourlès <i>Cosmogenic in situ-produced ¹⁰Be, a new tool to improve seismic hazard assessments ..</i>	453
2305	Kerry E. Sieh, Danny Natawidjaja, Steven Ward, Richard L. Edwards, Bambang Suwargadi, and Judith Zachariassen <i>Paleogeodetic and paleoseismologic constraints on the earthquake cycle of the Sumatran subduction zone</i>	459
2110	Kerry E. Sieh <i>The repetition of large-earthquake ruptures</i>	465
1932	Paul Somerville <i>The characteristics of subsurface faulting</i>	469
2009	Ross S. Stein, Shinji Toda, Aykut A. Barka, Tom Parsons, and James H. Dieterich <i>The role of stress transfer in the 1999 M=7.4 Izmit and M=7.2 Düzce earthquakes on the North Anatolian fault</i>	475
2257	Heidi D. Stenner and Keiichi Ueta <i>Looking for evidence of large surface rupturing events on the rapidly creeping southern Calaveras fault, California</i>	479
1864	Toshihiko Sugai <i>Estimating recurrence of paleoearthquakes by geologic investigation in a region with long historical records -- Two examples from North Anatolian fault in Turkey and Yoro reverse fault system in Japan.</i>	487
1832	Yuichi Sugiyama <i>Evaluating earthquake potential of major active faults in the Kinki-Triangle</i>	493
2269	Tae Woo Chang <i>Crustal uplift due to Quaternary faulting at the northeastern block of the Ulsan fault in the southeastern Korean peninsula.....</i>	497
2055	Masayoshi Tajikara <i>Late Quaternary crustal movement around Kanto mountains, Japan.....</i>	503
1858	Junko Takeda and Hiroyuki Kikuta <i>The state of active fault survey by local public bodies with support of the Science and Technology Agency (STA), Government of Japan.....</i>	507
1862	Keiji Takemura, Muneki Mitamura, Naoko Kitada, and Reiko Saito <i>Subsurface geology in the Kobe earthquake region, central Japan.....</i>	511
2303	Kazuhiro Tanaka and Ryuta Hataya <i>Luminescence dating of young sediments for estimating the time of faulting.....</i>	515
2010	Shinji Toda, Ross S. Stein, Paul A. Reasenber, and James H. Dieterich <i>Coseismic static stress change and its effect on aftershocks and future earthquake probability.....</i>	517
2071	Wahyu Triyoso and Kunihiko Shimazaki <i>Long-term earthquake potential models for seismic hazard assessment and their reliabilities</i>	519
2270	Phan-Trong Trinh, Robin Lacassin, Phillipe Herve Leloup, Paul Tapponnier, and Thierry Winter <i>Active tectonics and seismotectonics in north Vietnam and surrounding area</i>	523
2271	Hiroyuki Tsutsumi and Yasuhiro Suzuki <i>A preliminary active fault map and paleoseismic investigations in Sakhalin, Russia ...</i>	527
1857	Hiroshi Une <i>Development of "Active Fault Map in Urban Area"</i>	531
2279	Bishal N. Upreti, Takashi Nakata, Yasuhiro Kumahara, Hiroshi Yagi, Koji Okumura, Thomas K. Rockwell, N. S. Virdi, and Hideaki Maemoku <i>The latest active faulting in southeast Nepal</i>	533

2078	Pilar Villamor <i>Characterisation of normal faults in a volcanic area, the Taupo volcanic zone, New Zealand</i>	537
2263	Pilar Villamor and Kelvin Berryman <i>Initial observations of kinematics and structure at the southern termination of the Taupo Volcanic zone, New Zealand</i>	543
1821	Steven G. Wesnousky <i>The role of neotectonics in the study of fault mechanics and seismic hazard</i>	545
1833	Chesley Williams, Don Windeler, Chris Mortgat, Guy Morrow, and Gilbert Molas <i>Probabilistic seismic hazard analysis of Japan</i>	553
2075	Hiroshi Yagi, Hideaki Maemoku, Yoshinori Ohtsuki, Kiyoshi Saijo, and Takashi Nakata <i>Recent activities of active faults distributed in and around Kathmandu Valley, Lower Himalayan zone</i>	557
2056	Kenichi Yasue <i>When did the Atera fault start its present activity?</i>	561
2309	Robert S. Yeats <i>Fault segmentation of the northern Los Angeles basin</i>	563
1811	Nobuyuki Yonekura <i>Geological and geomorphological studies of large earthquakes in and around Japan</i> ...	569
2102	Dapeng Zhao <i>What caused the 1995 Kobe earthquake? --evidence from seismic tomography--</i>	575

Late Abstracts (accepted after December 20th, 1999)

1876	Makoto Okamura and Hiromi Matsuoka <i>Submarine active faults along the Median Tectonic Line, southwest Japan</i>	581
1870	Aiming Lin, Toru Ouchi, Allen Chen and Tadashi Maruyama <i>Co-seismic displacements, folding structures and paleoseismic events along the Chelungpu surface rupture zone occurred during the 1999 Chi-chi (Taiwan) earthquake</i>	583
2063	Akiko Tanaka, Tsukasa Nakano and Naoyuki Fujii <i>Estimation of surface displacement due to the 17 January 1995 Hyogoken-Nanbu earthquake observed by SAR interferometry</i>	585
1922	Thomas K. Rockwell, Aykut Barka, Serdar Akyuz, Timothy Dawson, Kerry Sieh, and Tania Gonzalez <i>The North Anatolian fault around the Marmara Sea, and pre- and post-earthquake research on the August 17, 1999 Koaceli earthquake</i>	587
2072	Keita Takada, Tsuyoshi Haraguchi, Takashi Nakata <i>The applications of Geoslicer for Quaternary studies</i>	593
2064	Hatsumi Hirayama <i>Generation mechanism of seismic electronic signal -- study of fault rocks and striated fault gauge--</i>	595
1871	Takashi Hosoya, Masato Ueda and Fu-Hsun Wu <i>Fault topography about the Chi-Chi earthquake in Taiwan</i>	597

List of Registered Participants (as of December 24th, 1999)
