room

### PURPOSES OF THE SYMPOSIUM

#### Main part but unknown part

Recently, we are pressured from many tragedy cases terrors and fear in Islamic countries, Europe and the United States. Those fear are making bias of Muslim in the world. However, it is very clear that most of Muslims in the world keep peace by their education style, if we try historical, educational and anthropological understanding.

The globalization and its intensification effect to Islam any aspects such as life, culture, food. Islamic education is one of vibrant part of their reformism. And those educations are diversified in the world.

#### What we talk about?

The three panelists are researchers of Islamic education in South Asia(Kusakabe), West Africa ( Shimizu ) and Indonesia(Wiji). They present 20min each, after that they try to make dialogues with participants.

It is our sincere hope of many participants gather at the symposium venue (IDEC 1F).
