

Year	2015Year	Faculty/Graduate School	Faculty of Medicine School of Medicine		
Lecture Code	I1504002	Subject	Specialized Education		
Subject Name	コミュニケーション学				
Subject Name (Katakana)	コミュニケーションガク				
Subject Name in English	Human Relations				
Instructor	TAZUMA SUSUMU,MIZOOKA MASAFUMI,YOKOBAYASHI KENICHI				
Instructor (Katakana)	タヅマ ススム,ミゾオカ マサフミ,ヨコバヤシ ケンイチ				
Instructor's Office	I-Lecture Room 4		Extension Number	5140	
E-mail Address	mizooka@hiroshima-u.ac.jp				
Campus	Kasumi	Semester	1Year Second Semester		
Day and Period	Wednesday Period 1,Period 2	Classroom Number	医第5講義室		
Lesson Style		Lesson Style (More Details)	Lecture, group work, presentations by students		
Credits	2	Class Hours/Week	2	Language of Instruction	J : Japanese
Eligible Students	1st year students				
Course Level	2 : Undergraduate Low-Intermediate				
Course Area(Area)	15 : Biomedical and Health Sciences				
Course Area(Discipline)	01 : Medical Sciences				
Keywords	Communication skills, medical interview				
Special Subject for Teacher Education		Special Subject			
Class Status within Educational Program					
Criterion referenced Evaluation					
Class Objectives/Class Outline	The basics of building human relations is getting people to have positive feelings toward you, To do so, it is important to listen to others attentively. This course helps students understand these and learn various communication skills, which provide a foundation for building a relationship of trust with medical service users (patients and their families). (http://home.hiroshima-u.ac.jp/mededu/course_syllabus.html#p01)

PC or AV used in Class, etc.	Textbook, handouts, audio materials, videos
Suggestions on Preparation and Review	Preparation and review are not particularly necessary. Active participation in group work is expected.
Requirements	Be on time to class.
Grading Method	Attendance is taken at each class. Grade will be based on class attendance and a final examination.
Message	Students will be busy with anatomy, etc. during this period, but since this course does not require preparation and review, we want students to attend all lectures without fail and to think about ' how communication should be done in medicine ' while in class.
Other	Students will be busy with anatomy, etc. during this period, but since this course does not require preparation and review, we want students to attend all lectures without fail and to think about ' how communication should be done in medicine ' while in class.
Please fill in the term-end class evaluation questionnaire. Instructors will reflect on your feedback and utilize the information for improving their teaching. Small classes will not conduct the questionnaire to prevent your identity from being uncovered.
