WebMO 22.0 is now available!

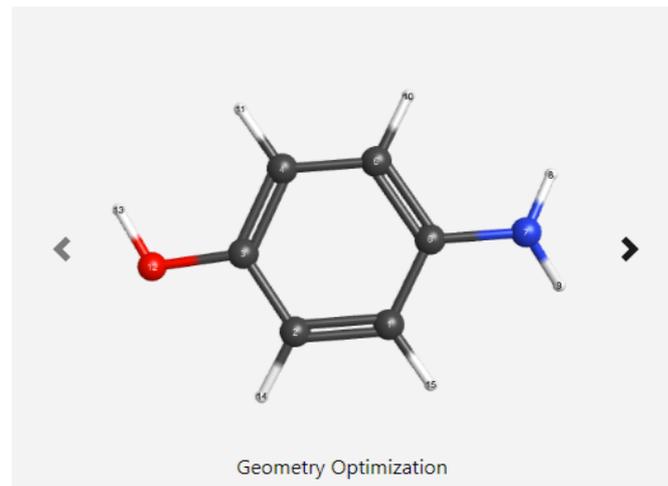

Demo

## WebMO

### What is WebMO?

**WebMO is a web-based interface to computational chemistry packages.**

- WebMO allows students and non-specialists to run state-of-the-art computational chemistry programs from the web-browser on their computer
- Intuitive for novices: point-and-click molecular editor, pre-defined job types, reasonable default values
- Flexible for experts: advanced job options, full access to input and output files

# Click WebMO Demo Server

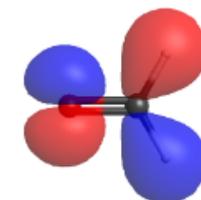

The [WebMO Demo Server](#) is now up and running!

## Login information

You may login to the [WebMO Demo Server](#) using the following guest credentials:

- Username: **guest**
- Password: **guest**

Job Time Limit: Since the WebMO Demo Server is a shared resource, jobs are limited to 30 sec of CPU time.

すでに存在する原子からドラッグすると結合を作ってもう一つ炭素ができる。炭素で六角形を作ってみよう。

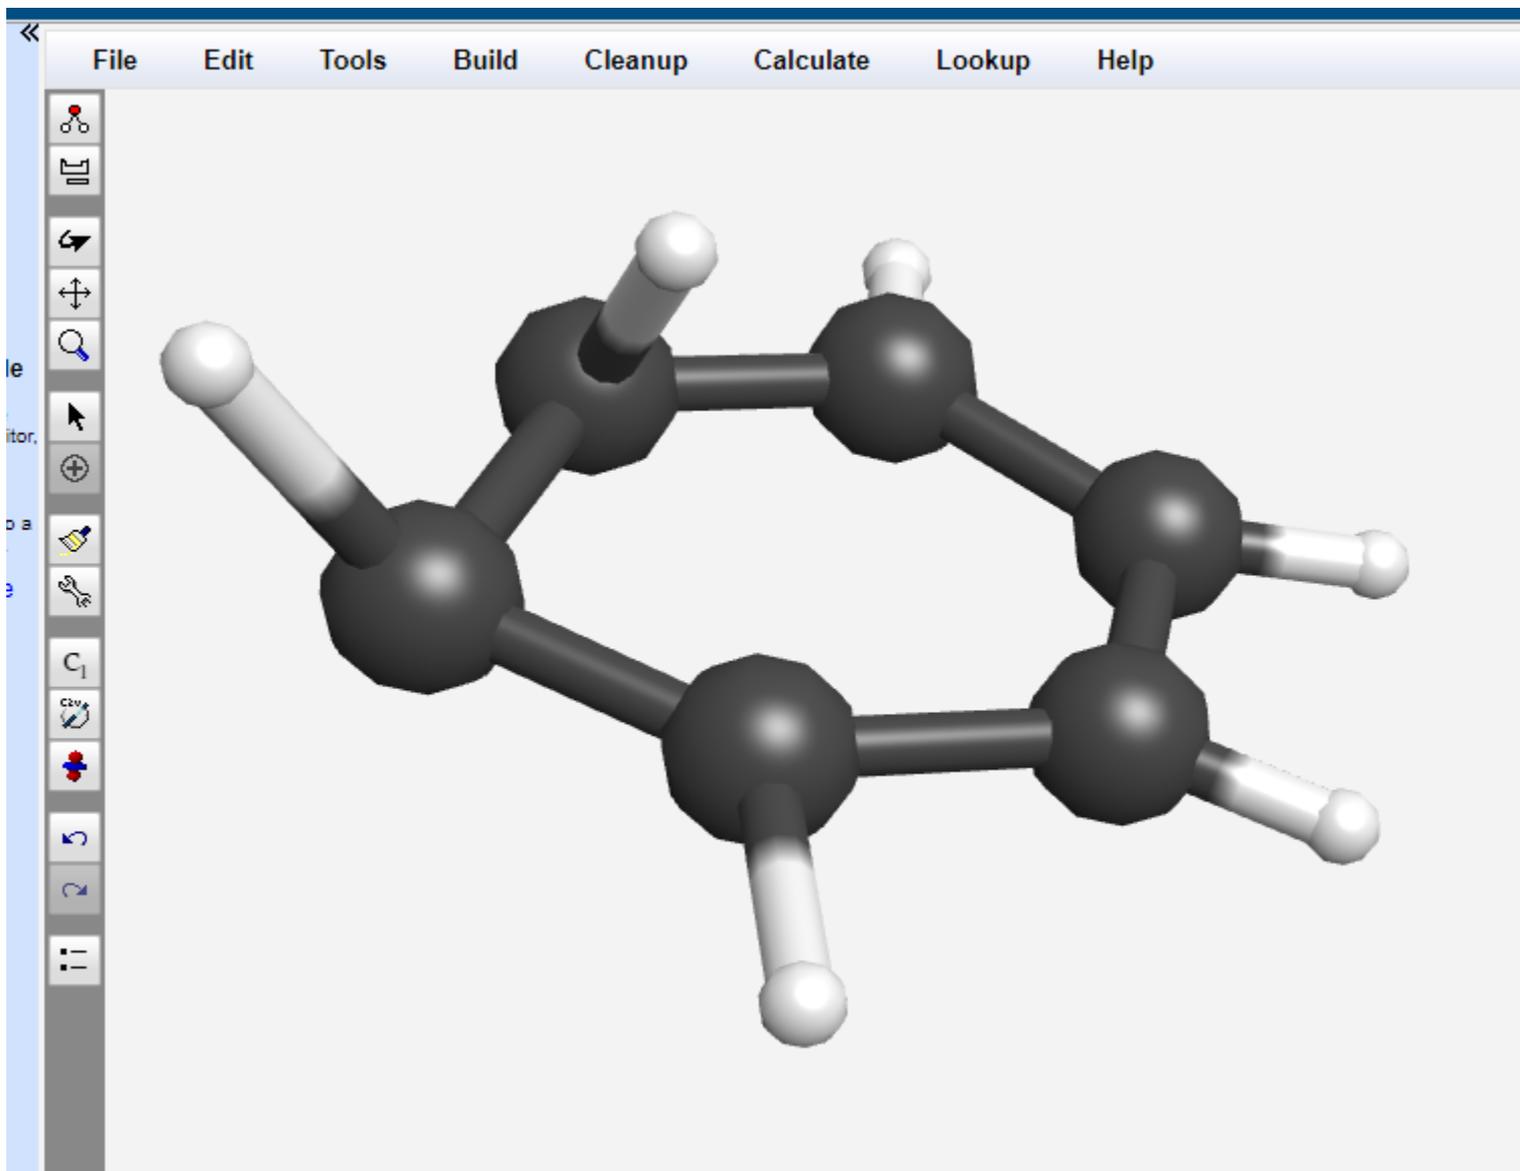

# 分子を回転するボタン

The image shows a screenshot of the 'Build Molecule' software interface. At the top, there is a blue header with the text 'Build Molecule'. Below the header is a menu bar with the following items: File, Edit, Tools, Build, Cleanup, Calculate, Lookup, and Help. On the left side, there is a sidebar with a 'Status' section containing user information (guest, webmo), time (30 sec, unlimited), and jobs (0 jobs). Below this is a 'Progress' section with a list of tasks: Job manager, Build molecule, Choose engine, Job options, and Submit job. At the bottom of the sidebar is an 'Editor help' link. The main area of the interface displays a 3D ball-and-stick model of a molecule, which appears to be a substituted benzene ring. A red arrow points from the top of the page down to a specific button in the left sidebar, which is circled in red. This button is a circular icon with a curved arrow, representing the rotation function.

# WebMO Job Manager

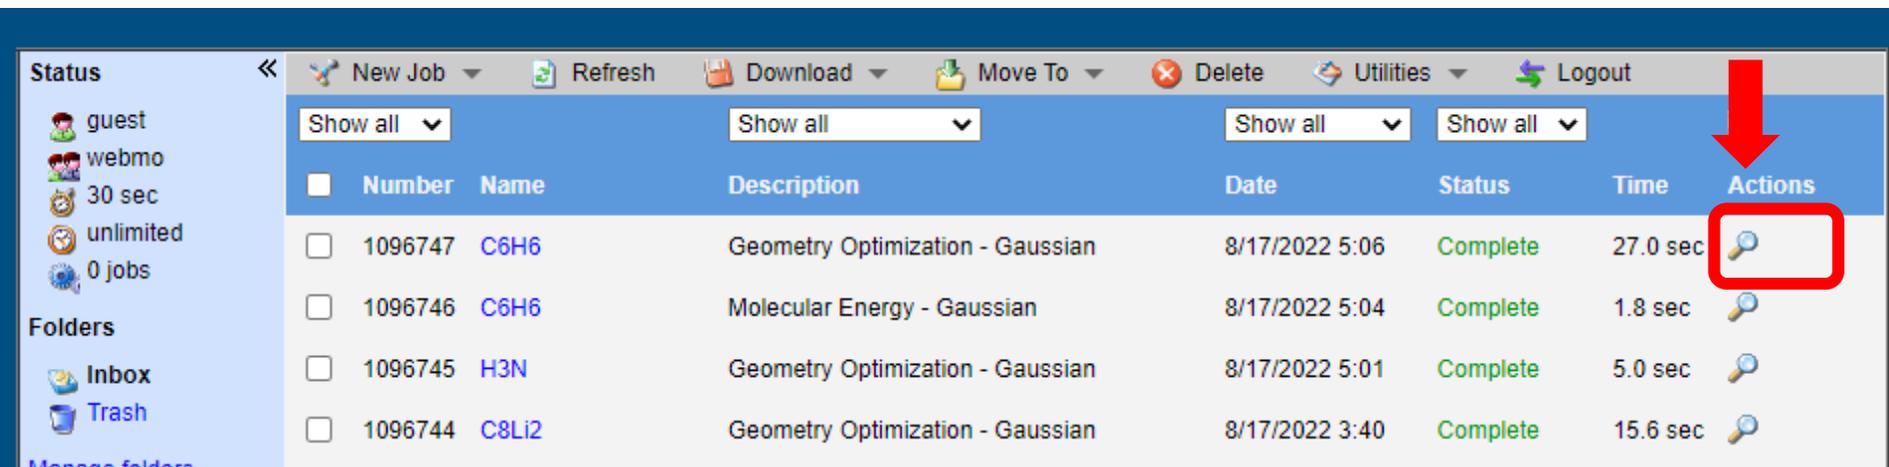

The screenshot shows the WebMO Job Manager interface. On the left, there is a sidebar with user information (guest, webmo, 30 sec, unlimited, 0 jobs) and folders (Inbox, Trash). The main area displays a table of jobs with columns for Number, Name, Description, Date, Status, Time, and Actions. The job with ID 1096747, name C6H6, and status Running is highlighted with a red box.

Number	Name	Description	Date	Status	Time	Actions	
<input type="checkbox"/>	1096747	C6H6	Geometry Optimization - Gaussian	8/17/2022 5:06	Running	11.0 sec	
<input type="checkbox"/>	1096746	C6H6	Molecular Energy - Gaussian	8/17/2022 5:04	Complete	1.8 sec	
<input type="checkbox"/>	1096745	H3N	Geometry Optimization - Gaussian	8/17/2022 5:01	Complete	5.0 sec	
<input type="checkbox"/>	1096744	C8Li2	Geometry Optimization - Gaussian	8/17/2022 3:40	Complete	15.6 sec	
<input type="checkbox"/>	1096743	C8Li2	Geometry Optimization - Gaussian	8/17/2022 3:37	Failed	31.0 sec
